1 Apologies

2 Public Participation

Notification to speak is required by 12 noon on the day of the meeting. Further information is available on www.horowhenua.govt.nz or by phoning 06 366 0999.

3 Late Items

To consider, and if thought fit, to pass a resolution to permit the Council to consider any further items which do not appear on the Agenda of this meeting and/or the meeting to be held with the public excluded.

Such resolution is required to be made pursuant to Section 46A(7) of the Local Government Official Information and Meetings Act 1987, and the Chairperson must advise:

- (i) The reason why the item was not on the Agenda, and
- (ii) The reason why the discussion of this item cannot be delayed until a subsequent meeting.

4 Declaration of interest

Members are reminded of their obligation to declare any conflicts of interest in writing they might have in respect of the items on this Agenda.

5 Confirmation of Minutes

5.1 Meeting minutes Foxton Community Board, 20 February 2017

5.2 Meeting minutes In Committee Meeting of the Foxton Community Board, 20 February 2017

6 Announcements

New Zealand Police

Sergeant Dave Fraser has been invited to address the meeting.

Monitoring Report to 3 April 2017

File No.: 17/118

1. Purpose

To present to Foxton Community Board the updated monitoring report covering requested actions from previous meetings of the Community Board.

2. Recommendation

- 2.1 That Report 17/118 Monitoring Report to 3 April 2017 be received.
- 2.2 That this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.

Chief Executive's Report to 3 April 2017

File No.: 17/119

1. Purpose

To present to the Foxton Community Board, for information, issues relating to the Foxton Community Board area.

2. Recommendation

- 2.1 That Report 17/119 Chief Executive's Report to 3 April 2017 be received.
- 2.2 That this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.

3. Issues for Consideration

3.1 Te Awahou Nieuwe Stroom

Good progress is being made on the construction. All services in the western end of the building have been diverted; a Mauri stone-laying ceremony was held on Sunday 26 March; the western lounge piling and foundations will be completed by week's end; a funding application was lodged with the Ministry of Culture and Heritage for \$1,026m. Claims on lotteries funding granted to date are to commence over the next month. The project will see the investment of wifi infrastructure that will cover all of Flax Mill Reserve and across to the Foxton Pool.

Photos **attached**.

3.2 Dog Signs on Sunset Walkway

Concerns have been raised by the Foxton Community Board regarding signage related to dogs on Sunset Walkway, Foxton Beach. The Parks & Property team has assessed the existing signage, particularly in relation to the RAMSAR site boundary where no dogs are allowed. Sunset Walkway, Holben Reserve and Flagstaff Reserve are important pathway linkages through the Foxton Beach area, and the dog bylaw proposals allow dogs on leashes on that walkway and on those reserves. The existing signage on the large information signs, and the smaller 'no dogs' signage (related to the RAMSAR site) are all in compliance with the proposed dog bylaw, and the RAMSAR site objectives.

Parks and Property have been in touch with the Manawatu Estuary Trust where the initial request for signage originated. No concerns have been raised with the team via that interaction about the existing placement or type of sign. We are therefore at something of a loss to progress this matter. The parks and property team would be happy to receive some further direction from the Foxton Community Board on the specific issues relating to this matter. Contact person is SeanH@horowhenua.govt.nz

3.3 Foxton Beach Sand Dunes

As per the attached note.

Our current understanding is that we can undertake lowering of the car-park dunes under the existing resource consent but this does not extend to the foredune. We are seeking some further clarification from Horizons as there seems to be some confusion whether the activity is non-complying in which case lowering would not be allowable.

3.4 Foxton Water Update

- (i) The design and the treatment process recently put in place for Manganese (Mn) removal remains excellent with acceptable Disinfection By-Products. The only issue observed so far is the need to change the PLC programme to lower the flow during backwash as the remaining filter is having its load doubled and puffing turbidity. This is being worked on.
- (ii) For the reporting period we have received zero complaints regarding colour.
- (iii) The flushing of the system has been changed from the bottom of the Town to the top, and John Shailer reports that the flushes are now almost clear, and that they probably need to be reduced in frequency in future.

3.5 Water Reservoir Foxton

David Clapperton is undertaking Consultation with iwi regarding the location of the Foxton Water Tank.

3.6 Foxton Wastewater Treatment Plant Hearing

The Court hearing is scheduled for the week of 27- 31 March 2017. The Foxton Community Board is a s274 party and attended the pre-conference hearing earlier in this month.

3.7 Petition – Continue with Foxton Main Street Upgrade

Attached is a petition received on 24 March 2017 which the petitioner, Lindsay Sanson, has requested be brought to the Foxton Community Board. The content is self-explanatory.

3.8 Foxton Beach Freeholding Account

Attached to this report is a copy of the updated Foxton Beach Freeholding Fund projected forecast to 31 January 2017.

Te Awahou Nieuwe Stroom – March 2017

Note to Foxton Community Board Regarding Foxton Beach Sand Dunes

At the Foxton Community Board meeting of 20.02.2017 a request was made by the Chair to clarify the current position in relation to lowering the foredune at Foxton Beach car-park to improve amenity views. The following note addresses that query and outlines current proposals in relation to the sand dunes at Foxton Beach.

Rear/Car-Park Dunes

The sand dunes at Foxton Beach are subject to resource consent 102904/1. The resource consent has a number of conditions that relate specifically to sand management. Of relevance is condition 2.c of resource consent 102904/1. 2(c) states an authorised activity is. *“To maintain a sand balance consistent with that required to avoid the effects of erosion and deposition to a point 100 metres north and 100 metres south of the carpark edge”*

Condition 7 (Maintenance and Reporting) of the Consent allows for the preparation of a sand management plan to facilitate transfer of sand from the northern dunes and wind-blown dunes at the rear of the car-park to the southern dunes. No reference is made to the foredune.

The sand management plan is explicit that the three triggers for sand transfer (northern and car-park dunes but not foredune) are -

- 1) build-up of sand at the back of the car park, visually assessed by council officers, or identified during monitoring surveys;
- 2) build-up of sand north of the wall identified in monitoring surveys;
- 3) loss of sand south of the wall identified in the monitoring surveys.

No sand transfer has taken place to this point from the northern dunes or car-park dunes to the southern dunes and the annual monitoring reports do not show conditions that would trigger 2 or 3 above. However, on officer assessment of sand build-up at the rear dune/car-park dunes suggests a sand transfer is necessary under item 1 above.

On this basis officers have planned to lower the rear/car-park dunes in line with the recommendations contained in the LandVision Report “Foxton Beach Management Options” presented to the Foxton Community Board in June 2016. A budget is in place for this work and it is likely work will be undertaken in August 2017 in line with the requirements of the sand management plan.

Foredune

Following the initial request by members of the Community Board in July 2015 to reduce the height of the foredune the Parks and Property team raised the matter with the Horizons compliance team. Below is the response from the Consents Planner in relation to the foredune at the time (27.07.2015).

“As discussed on site, the dune between the carpark and the beach has high habitat values, and any alteration of this dune would be a non-complying activity under rule 13-9 of the One Plan. The north and south and carpark dune do not have high habitat values, and any alteration to these dunes would be discretionary activities under rule 13-7 of the One Plan.”

Following presentation of the LandVision report in June 2016 to the Foxton Community Board a complaint was made to Horizons that the seawall is causing erosion of the foredune at Foxton Beach. The Horizon’s compliance officer undertook an inspection on 05.08.2016 and concluded that *“the seawall is not causing any erosion to the fore dunes to the north or south of the structure nor is the structure a coastal hazard”*. The inspector observed.

“from reading a recent article about the seawall I understand there may be additional pressure from the public to lower the fore dune that is located on top of the Foxton Beach seawall to reinstate the views of the beach from the car park. I have reviewed the seawall consent and there is no condition that would expressly allow Horowhenua DC to lower the top section of the sand dune or carry out earthworks or disturbance on the foredune. Horowhenua DC would require a separate resource consent to authorise this work.”

Horizons' staff are clear that reduction of the foredune is not permitted under the existing consent. As such officers are preparing a consent application to reduce the foredune in parallel with the reduction of the sand dunes to the rear of the car-park.

Contact Officer: A Nelson.

Please accept my petition:

“We the undersigned demand that the planned upgrade to Foxton’s Main Street continue as planned by Foxton Community Board and supported by the previous HDC. End the unnecessary and unwarranted delays that are negatively impacting our businesses and community.”

Background

In light of the HDC mayor continually claiming that **nobody** in Foxton wanted the Main street upgrade to happen and that there had been insufficient consultation I wanted to find out if I was indeed the only person in town to want the planned upgrade to go ahead following many years of discussion/consultation, planning and at least 4 public meetings on the same, that I attended personally.

The mayor and some of the protestors/supporters have also claimed that all main street business had been contacted and none of them wanted the street upgrade as planned to go ahead.

I personally have never been contacted on this matter and also am fully aware that the trustees and staff of the de Molen and Dutch café have never been asked for their opinions.

Also business owners in the surrounding streets have never been contacted by the mayor or any of the protesting/supporters as claimed in media and by themselves.

Practice

I chose to keep the petition/poll as authentic as possible.

By this I mean that I have not conducted an online petition as I have seen these can be easily corrupted. There were no approaches to public in person and there was no door knocking.

Instead I made just three posts to my few friends via social media (Facebook- all 67 friends and most of them are from outside New Zealand, SAD I know, but true!) that I was offering a chance for anyone to support my petition but they had to come down personally on a Saturday/Sunday in their own precious time and find me outside the memorial hall in Foxton. Hours spent gathering signatures were approximately 16 hours with the help of Mr Carl Terry (when I was unable to be there). There was no signage, or flag, or abusive posters, of false claims. One sign at the table highlighting the petition was on the table was all.

Result

You will see that there are signatures from 133 Foxton/Foxton beach residents and 17 from outside the Foxton district.

In the very short time the petition was run (I had to go back to work on Monday!) we gained a broad cross section of Foxton residents, many of whom can trace their ancestors, like myself, back to the 1860's and beyond in this area. Many of whom are rate payers and employers or are employed locally.

There were also a number of recent arrivals to town who have invested in property and business who are very keen to see the upgrade to the street completed and were as frustrated as I am about the excessive delays to a project that will enhance not just the main street but add aesthetic value to the gate way to Manawatu and Horowhenua.

Signatures include business owners, teachers, iwi members, church members, ratepayers, renter's students, pensioners and managers/staff of many local businesses.

I believe that this small and briefly held petition highlights that many Foxton people, business owners, managers, workers, pensioners, students, teachers among others strongly indicates that the council MUST go ahead and complete the planned upgrade for Foxton's main street.

Thank you for your time.

Lindsay Sanson

Foxton

Proposed Changes to the Areas Dogs are allowed in the Kere Kere Ward

File No.: 17/125

1. Purpose

To provide an update to the Foxton Community Board on the proposed changes to Councils Dog Control Policy and Bylaw 2015 where the changes proposed affect the Kere Kere Ward.

2. Recommendation

- 2.1 That Report 17/125 Proposed Changes to the Areas Dogs are allowed in the Kere Kere Ward be received.
- 2.2 That this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.
- 2.3 That the Foxton Community Board endorses the changes proposed for the reasons outlined below.
- 2.4 That the Foxton Community Board advises the appropriate locations for dog provision signage in the Kere Kere Ward area.

3. Background/Previous Council Decisions

- 3.1 The Dog Control Policy and Bylaw 2015 were adopted by Council at a meeting held on 5 August 2015.
- 3.2 The proposed changes to the bylaw were presented to the 1 February 2017 meeting of Council, where the Foxton Community Board requested the matter be brought to the Board regarding the changes in its area.
- 3.3 This report covers the proposed changes to the Kere Kere Ward Area for the reasons set out in 4 below.

4. Issues for Consideration

- 4.1 The proposed changes to the bylaw do not affect the overall intent of the bylaw.
- 4.2 The proposed changes to the bylaw were completed in consultation with Council's Parks and Property Team.
- 4.3 Proposed changes to the areas where dogs are allowed have been made to promote the following outcomes:
 - Provide more leashed and unleashed areas for owners to exercise their dogs
 - Allow families to take their pets with them to enjoy Council's recreation sites.
 - Allow people walking dogs to transition across sites that link recreational areas, footpaths, and pathways.
 - Provide additional exercise areas within urban areas for people who walk their dogs in their neighbourhood.
- 4.4 For ease of reference in respect of the reasoning for each change in relation to the Kere Kere Ward Area, Attachment A is submitted.

- 4.5 When changes to the Bylaw are confirmed the intent is to erect clear and prominent signage of dog provisions around the district. The Board may wish to provide advice on the location of this signage for the Kere Kere area.

Proposed changes to the Dog Control Policy and Bylaw 2015 in relation to the Kere Kere Ward

AREAS WHERE DOGS ARE ALLOWED (LEASHED AND/OR UNLEASHED)		
	LEASHED	UNLEASHED
Foxton	<ol style="list-style-type: none"> 1. Residential streets (unless prohibited) - <u>Already exists</u> 2. Foxton Town prohibited area (after shop trading hours) -<u>Already exists</u> 3. Foxton Cemetery – <u>Already exists</u> 4. Easton Park *new 5. Seaview Garden *new 6. Stuart Donnelly Park *new 	<ol style="list-style-type: none"> 1. Victoria Park – <u>Already exists</u> 2. River Loop Reserve – <u>Already exists</u>
Foxton Beach	<ol style="list-style-type: none"> 1. Residential streets (unless prohibited) – <u>Already exists</u> 2. Holben Parade * new 3. Cousins Avenue Reserve = <u>previously unleashed</u> 4. Flagstaff Reserve * new 5. Sunset Walkway * new 	<ol style="list-style-type: none"> 1. Foxton Beach outside of ramp areas – <u>Already exists</u> 2. Hennessey Street/Lowe Avenue grounds – <u>previously leashed</u> 3. Ferry Reserve *new 4. Hartley Street Reserve – <u>previously leashed</u>

DETAILED CHANGES AND REASONS FOR THEM

FOXTON

Leashed changes

1. **Easton Park**
Links State Highway 1 to the Main Street in Foxton and is a thoroughfare.
2. **Seaview Garden**
This is a very popular walking area.
3. **Stuart Donnelly Park**
This will allow families with leashed dogs to utilise the park.

Unleashed changes

There are no changes to the unleashed areas.

FOXTON BEACH

Leashed changes

1. **Holben Parade**
This is a very popular walking area that provides links to local roads and the beach.
2. **Cousins Avenue Reserve**
This reserve is currently highly used by owners walking dogs. This change acknowledges what is already occurring.

3. Flagstaff Reserve

This reserve links Seabury Avenue to the River and is currently highly used by owners walking dogs. This change acknowledges what is currently occurring.

4. Sunset Walkway

The walkway links to the beach and is currently highly used by owners walking dogs. This change acknowledges what is already occurring.

Unleashed changes

1. Hennessey Street/Lowe Avenue grounds

This reserve links Hennessey Street East with Lowe Avenue and is not highly utilised as a recreation reserve. It is identified by the Parks and Property team as a good location to have an unleashed area.

2. Ferry Reserve

This reserve is a large reserve area of trees and plantings, and is currently used as a dog exercise area. This change acknowledges what is currently occurring.

3. Hartley Street Reserve

This reserve is in between Cousins Avenue Reserve and Sunset Walkway which are both proposed leased areas. It is identified by the Parks and Property team as an ideal reserve to have as a dog exercise area between the two.

The following Protected Wildlife in Public Places section was included in the Dog Control Policy & Bylaw 2004 but not in the Dog Control Policy & Bylaw 2015. This change is to rectify this.

PROTECTED WILDLIFE IN PUBLIC PLACES		
Public Place	Protected Wildlife Present	Control
Manawatu Estuary Foreshore	Wrybill Turnstone Sharp-tailed Sandpiper Lesser Knot Curlew Sandpiper Red-necked Stint Banded Dotterel Variable Oystercatcher Bar Tailed Godwit Asiatic Whimbrel Least Golden Plover Greenshank Marsh Sandpiper Little Blue Penguins New Zealand Fur Seals	On a leash

DETAILED CHANGES AND THE REASONS FOR THEM

Manawatu Estuary Foreshore

The management plan for the Ramsar site indicates that unleashed dogs are a threat to wildlife. This site includes the river and Sunset Walkway and is a vital walking track access at the beach. Therefore this change is to allow dogs to be walked between the areas on leash.

Resource Consenting (Planning) Matters Considered Under Delegated Authority

File No.: 17/67

1. Purpose

To present details of decisions made under delegated authority in respect of Resource Consenting (Planning) Matters.

2. Recommendation

- 2.1 That Report 17/67 Resource Consenting (Planning) Matters Considered Under Delegated Authority be received.
- 2.2 That this matter or decision be recognised as not significant in terms of s76 of the Local Government Act 2002.
